delete  
account

reset  
user  
password

## Document Management & VectorDB

add  
document

extract  
named  
entities in  
document

analyze  
sentiment  
of  
document

delete  
document

Add  
embeddings  
to  
documents

## Intelligent Search Algorithms

evaluate  
search  
system

View  
algorithm  
performance

Update  
search  
algorithm

try  
different  
models

Improve  
models  
based on  
feedback

Do A/B test  
for  
different  
models

## Search Execution

filter  
documents  
by  
metadata

search for  
extractive  
answer

execute  
semantic  
search  
query

execute  
exact  
match  
query

Give  
feedback  
for search  
result

## System Administration

View  
system  
health

View  
database  
status

Backup  
system  
data

Deploy  
new  
model
